

100 % sozial auch kommunal – für ein solidarisches München

Dear Munich Citizens coming from abroad,

The EUROPEAN LEFT in MUNICH advises you to vote for the candidates of the political party DIE LINKE at the next local council elections on the 16th of March 2014.

Why is it important to vote again for DIE LINKE in the Munich local council?

Who can vote?

If you come from another EU country, are at least 18 years old and registered in Munich since minimum 3 months, then you can vote at these local elections. Many other foreigners coming from outside the EU cannot vote.

What says DIE LINKE on that point?

DIE LINKE commits at the regional and national levels, to allow all foreigners, whom are living in Germany, to have the right to vote. We also want to facilitate double-nationalities, as many EU Citizens already have. DIE LINKE wants to radically improve the welcoming conditions for asylum seekers.

Fight poverty, fairly redistribute wealth!

DIE LINKE wants that rich people pay more taxes. People with low revenues shall have a better basic social security. Administrations shall stop to bother unemployed people needing financial support, with unnecessary red tape. An increase of pensions is urgently needed. It is unacceptable that in our rich city Munich, more and more people fall into poverty, that schools and cultural institutions remain under-financed and cannot be well maintained, and finally that many cannot live from their jobs.

Mensch vor Profit

DIE LINKE.
100 % sozial – auch kommunal

Affordable housing is a fundamental right, and not a luxury!

Since many years apartments and housing prices are exploding: In 2013 for a new apartment, 16 €/m² we on average to be paid for a rent. In 2005, it was only of 12 €. To buy you had to pay 3.500 €/m² in 2005), and 4.750 €/m² in 2013. The number of homeless people in Munich did increase constantly, and there are less social housings.

Large private Investors do make the law for their own profits on that housing market. DIE LINKE wants a new democratic regulation of the housing market. At the national level, DIE LINKE wants to introduce maximum prices, which shall also in Munich not be overlapped.

Health is not a merchandise! Human dignity before profits!

For a performing public health system, independent from people's revenues!

The society is becoming older, challenging our health system at the local level. Poverty (especially child-poverty), care, prevention and fight against drugs were not paid enough attention. DIE LINKE wants the health system to stay in the public sector, against privatisation!

Work and economy: Human before profits!

To have no job, or one with very low pay, are the two first main reasons generating poverty in our rich City of Munich. Since many years, particular social groups are suffering from this situation: Seniors, disabled people, people educating alone their children (mostly women), people without diplomas or with low level ones. We need a committed local work and economic policy, instead of only an administration of the unemployed in the Job-centers.

Mobility in- and outside Munich is possible without a second large tunnel:

Walking, cycling and travelling for free in the public transport system will spare CO₂!

DIE LINKE thinks first of supporting frail people in the public transport system, then the ones who cycle and walk, and those whom are annoyed by the noise of the street. Instead of a 3 Billion € new S-Bahn tunnel in the City Center, we want the revamping of the southern railway network.

You can inform yourself on our candidates to the City Council and on our programme on the following website: www.dielinke-muc.de You can also contact us at: info@dielinke-muc.de
